If the lab instruction says ...

“... ask for help right away in the lab ...”

➤ This means:

- join the Zoom session of the instructor or of one of the TA's currently happening at this point on Tuesday and show them where you are at so they can give you a hand

Zoom Etiquette

- ▶ When you join lab hours or office hours of the instructor or of the TA's on Zoom, the idea is that each student asks one question and we rotate until all have asked their questions
- ▶ This way, no one student monopolizes the Zoom session
